## Partner, Partner Designate or Of Counsel Life Sciences/Pharmaceuticals Patent Attorney

Work for a leading British IP firm which is seeking to expand its life sciences/pharmaceuticals team by appointing an additional Partner or Of Counsel. Candidates who have not quite reached Partnership will also be considered. The firm has an excellent profile and is known for its opposition and litigation work, as well as high value prosecution and strategic due diligence advice.

Ideal candidates will want to be highly involved in all aspects of firm development including training, mentoring and business development. Join a firm that has grown impressively in recent years including six new Partner appointments in the last 18 months.
